SUMMARY

- Having 9 years of rich IT experience in Analysis, Design, Development and Implementation in .Net and Angular
- Experience in design and development of applications using .NET Framework, .NET Framework Core, Asp.Net, Asp.Net Core, ADO.NET,MVC, C#, LINQ, Entity Framework, Web API,Angular, Azure DevOps, Micro Services, Azure Function, Service Bus, Azure Key Vault, Azure Storage Account, SQL Server, Oracle DB
- Have understanding of Object Oriented concepts and Agile methodology
- Involved in all phases of the SDLC from analysis, design, development, testing, implementation and maintenance with timely delivery against aggressive deadlines.
- Experienced in developing and creating application architecture using SOLID design principle.
- Experienced in developing technical documentation in various stages of SDLC.
- Experienced in providing production support and maintenance following the IT Service lifecycle, SLA, Incident and Change Management.
- Capable of working alone and with teams, ability to adapt to change, strong analytical abilities and ability to grasp and apply new concepts quickly and effectively.
- Continuously involved in resolving critical incidents and supported the team in many production issues raised by the client.
- Helped my peers by giving them knowledge transitions on the basic functionality as well as complex recurring issues.
- Received recognitions and awards in the project.
- Completed Microsoft Azure certification(AZ-900).

KEY DOMAIN & TECHNICAL KNOWLEDGE

Domain	Health Care, Life Insurance, Property Insurance & Comsmedia
Technical	C#, MVC, Web API, Entity Framework, Entity Framework Core, LINQ, JavaScript, Ajax, Angular, Asp.Net, Asp.Net Core, Microsoft Azure, Micro Services, DevOps, Azure Function, Service Bus, Azure Key Vault, Azure Storage Account, SQL Server, Oracle Database

ACADEMIC QUALIFICATION

- B.Tech in Mechanical engineering in 2015 from Veer Surendra Sai University Of Technology, Burla

PROJECTS IMPLEMENTED	
Project	Product Operations
Client	AmTrust Financial Services, Inc., is a multinational property and casualty insurance company in U.S (TCS)
Role	Full stack Application Developer
Technologies	C#, Asp.Net MVC, Web API, Ado.Net, Entity Framework, LINQ, JavaScript, Angular, SQL Server
Description	It includes developing and supporting different applications that comes under Client's Product Operations umbrella.
Responsibilities	<ul style="list-style-type: none"> ● Development, operation and maintenance of in-house .net applications ● Extended existing project by adding new modules ● Identified issues, troubleshoot, test and deployed fixes. ● Interacted with business to gather requirements and suggesting improvement ideas ● Involved in peer code review ● Involved in training junior resources and helping them to get functional and technical knowledge related to the project

Project	AOS Implementation
Client	International Baccalaureate Organisation, One of the U.K based Educational Institute(Cognizant)
Role	Full Stack Developer
Technologies	C#,ASP.Net Core, Entity Framework Core, Web API,LINQ, Angular, Sql Server, Azure features: DevOps, Azure Function, Service Bus, Azure Key Vault, Azure Storage Account ,Micro Services
Description	Web application development for Comsmedia Practice. Also developing micro services as well as sending data among micro services and to other systems.
Responsibilities	<ul style="list-style-type: none"> ● Involved in coding and creating architecture in module using Asp.Net Core framework with Entity Framework Core, Angular and SQL server. ● Worked on modules implementing business logic using C#. ● Identified issues, troubleshoot, test and deployed fixes. ● Interacted with business to gather requirements and suggesting improvement ideas ● Involved in peer code review ● Helped my peers by giving them knowledge transitions on business functionality as well as technical stuffs.

Project	Manufacturing Data Preparation
----------------	--------------------------------

Client	Trane Technologies, An American Irish-domiciled diversified industrial manufacturing company(Cognizant)
Role	Application Developer
Technologies	C#, ASP.Net Core, Dapper, Web API, Oracle DB, AWS
Description	Developing micro services & web application for Trane Technologies.
Responsibilities	<ul style="list-style-type: none"> ● Developing micro services & web application using Asp.Net Core framework with Dapper and Oracle DB. ● Involved in developing application architecture using SOLID design principle. ● Interacted with business to gather requirements and suggesting improvement ideas ● Involved in peer code review

Project	Product Operations
Client	AETNA, One of the leading insurance company of USA (Infosys Limited)
Role	Application Developer
Technologies	C#, JavaScript, Asp.Net, Windows Application, Asp.Net MVC, WCF, REST services, Ado.Net, Entity Framework, LINQ, SQL Server
Description	It includes developing and supporting different applications that comes under Client's Product Operations umbrella.
Responsibilities	<ul style="list-style-type: none"> ● Development, operation and maintenance of in-house .net applications ● Interacted with business to gather requirements and suggesting improvement ideas ● Extended existing project by adding new modules ● Identified issues, troubleshoot, test and deployed fixes ● Applied fixes and enhancements to SQL scripts ● Prepared training manuals and delivered training sessions to business for any new changes ● Involved in training junior resources and helping them to get functional and technical knowledge related to the project

Project	Banking Application
Role	Developer (Trainee in Infosys Limited)

Technologies	Asp.Net MVC, C#, Entity Framework, LINQ, SQL Server
Description	We have to create an application in Asp.Net MVC, having functionalities of account details, deposit and withdraw from account, credit card and debit card functionalities, users with roles of Admin, Manager, General Users and Customer.
Responsibilities	<ul style="list-style-type: none"> • Worked as a Developer in a team for designing and developing the application following Asp.Net MVC architecture pattern, using C# as programming language, Entity Framework for Data Access Layer, SQL Server as database and TFS as source control. • Used Razor syntax for views. • Database development including writing stored procedures, functions and DB queries for SQL Server. • Document requirements and technical specifications.

PERSONAL PROFILE	
Date of Birth:	14th June,1993
Sex:	Male
Marital Status:	Single
Linguistic Abilities:	English, Hindi, Odia
Father's Name:	Subal Sahoo
Present Address:	At/Po-Adaspur, Dist-Cuttack State: Odisha, Pin: 754011

DECLARATION
I do hereby declare that all the particulars furnished above are correct and true to the best of my knowledge and belief.
